TITLE	Fact Book 1971-72: Alabama Institutions of Higher Education Universities and Colleges.
INSTITUTION	Alabama State Commission on Higher Education, Montgomery.
PUB DATE	May 72
NOTE	89p.
EDRS PRICE	MF-$0.65 HC-$3.29
DESCRIPTORS	College Deans; *College Faculty; College Students; *Degrees (Titles); *Enrollment Trends; *Higher Education; *Institutional Research; Statistical Data
IDENTIFIERS	*Alabama

ABSTRACT

This factbook provides four major categories of data concerning Alabama colleges and universities: institutional characteristics, student enrollments, degrees and other formal awards, and numbers of deans and faculty. All data are divided into three parts. Part one presents state, southeast, and national data. Summary data for all state institutions are reviewed in part two and institutional summaries are presented in part three. A 7-item bibliography and appendix of related material are included. (MJM)

ALABAMA COMMISSION ON HIGHER EDUCATION

May 1972

FOREWORD

The Alabama Commission on Higher Education was authorized on May 14, 1969 for "the general purpose of promoting an educational system that will provide the highest possible quality of collegiate and university education to all persons in the State able and willing to profit from it." The Act which created the Commission directed the Commission "to cause to be made such surveys and evaluations of higher education as is believed necessary for the purpose of providing appropriate information to carry out its powers and duties ..." It is in accordance with this provision that this, the third in a series of studies, is presented.

This study provides the Commission, members of the Legislature, and the higher education community with accurate data on the institutions of higher education in Alabama.

The Commission expresses appreciation to Dr. Joseph Sutton, Vice President for Institutional Studies and Services, University of Alabama, and Mr. Coy Wood, Director of Analytical Studies, University of Alabama, for assembling these data for publication.

PREFACE

This publication is the first Fact Book prepared for distribution by the Alabama Commission on Higher Education. Its purpose is to contribute to the understanding and improvement of Alabama universities and colleges by making information about them more readily available. Both public and private institutions cooperated in making this issue possible.

Data for this book were compiled primarily from duplicate copies of the U.S. Office of Education's Annual Higher Education General Information Survey (HEGIS). Each university and college in the state was requested to submit copies of their 1971 HEGIS reports to either the Alabama State Department of Education or the Alabama Commission on Higher Education. Most institutions provided all information requested.

Data from four HEGIS reports are developed in this publication. Selected samples of the reports, including instructions and definitions, are reproduced in the appendix. Some data from other sources are included. The sources are indicated in the respective tables. Estimates or year-old data were used in several tables in order to complete state summaries.

By design, narration in a fact book is restricted and data emphasized. This pattern guided the division and presentation of information into three parts: state, southeast, and national data in Part I; summary data for all state institutions in Part II; and institutional summaries in the final and major section, Part III.

Four major categories of data are reported: institutional characteristics, student enrollments, degrees and other formal awards, and numbers of deans and faculty. Future issues of the Fact Book should include other major data categories such as finances and facilities. Program inventories of senior and junior colleges have recently been published by the Alabama Commission on Higher Education.

APPENDIX

Selected HEGIS Forms and Definitions

Four reports from the U.S. Office of Education's Annual Higher Education General Information Survey (HEGIS) were used in collecting information for this publication. Selected portions of the last three are included because of the interpretative value contributed by the instructions and definitions.

OE Form 2300-1. Institutional Characteristics of Colleges and Universities: 1971-72. The annual up-date was accomplished by additions to or deletions from computer worksheets. Samples are not included.

OE Form 2300-2.3-1. Opening Fall Enrollment in Higher Education, 1971. The complete form is included.

OE Form 2300-2.1. Degrees and Other Formal Awards Conferred Between July 1, 1970 and June 30, 1971. Pages 4, 5, 6 and 29.

OE Form 2300-3. Employees in Institutions of Higher Education, Salary and Fringe Benefits, 1971-72. Page 4 contains the only information related to these data.

OE Form 2300-2.3-1

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

HIGHER EDUCATION GENERAL INFORMATION SURVEY

OPENING FALL ENROLLMENT IN HIGHER EDUCATION, 1971

PLEASE READ INSTRUCTIONS BEFORE COMPLETING THIS FORM

O.M.B. NO. 51-R0738
APPROVAL EXPIRES 6/30/72

1. INSTITUTION CODE NUMBER

2. DUE DATE
November 1, 1971

Items 1, 3, 4, 5, and 6 MUST be completed by all institutions. If applicable, complete items 7 and 8. Submit a separate survey form for each of the campuses or branch campuses of the institution. If it is impossible to provide separate data for any branch campus, and the data for that branch must be included in the parent institution's report, indicate this in item 8 below.

3. NAME AND MAILING ADDRESS OF INSTITUTION OR CAMPUS COVERED BY THIS REPORT *(Include city, State, and ZIP code)*

4. NAME AND TITLE OF RESPONDENT

5. TELEPHONE NUMBER OF RESPONDENT *(Area code, local number and extension)*

6. THE INSTITUTION COVERED BY THIS REPORT IS *(Check only one)*

(a) ☐ A SINGLE-CAMPUS INSTITUTION

(b) ☐ A MAIN CAMPUS *("Parent" institution)* WITH ONE OR MORE BRANCH CAMPUSES AND/OR OTHER CAMPUSES *(Specify in item 8 below)*

(c) ☐ A BRANCH CAMPUS OF A PARENT INSTITUTION *(Write the name of parent institution below)*

(d) ☐ ONE OF THE ADMINISTRATIVELY EQUAL CAMPUSES OF A MULTI-CAMPUS INSTITUTION

7. IF THE INSTITUTION COVERED BY THIS REPORT IS INCLUDED IN AN "INSTITUTIONAL SYSTEM", WRITE THE NAME OF THE SYSTEM BELOW.

8. PARENT INSTITUTIONS *(As checked in item 6b)* SHOULD LIST THE NAMES OF ALL THEIR BRANCH CAMPUSES BELOW. USE THE FIRST COLUMN TO SHOW WHETHER DATA FOR ANY OF THESE UNITS ARE INCLUDED WITH THE DATA FOR THE "PARENT" IN THIS REPORT.

ARE DATA FOR THIS UNIT INCLUDED IN THIS REPORT?	NAME OF BRANCH CAMPUS AND/OR OTHER CAMPUS	ADDRESS *(City, State, and ZIP code)*
☐ YES ☐ NO		
☐ YES ☐ NO		
☐ YES ☐ NO		

DEFINITIONS

MULTI-CAMPUS INSTITUTION. An organization bearing a resemblance to an institutional system, but unequivocally designated as a single institution with either of two organizational structures: *(1)* an institution having two or more campuses responsible to a central administration *(which central administration may or may not be located on one of the administratively equal campuses)* or *(2)* an institution having a main campus with one or more branch campuses attached to it.

MAIN CAMPUS. In those institutions comprised of a main campus and one or more branch campuses, the main campus *(sometimes called the parent institution)* is usually the location of the core, primary, or most comprehensive program. Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is also the location of the central administrative office.

BRANCH CAMPUS. A campus of an institution of higher education which is organized on a relatively permanent basis *(i.e., has a relatively permanent administration)*, which offers an organized program or programs of work of at least 2 years *(as opposed to courses)*, and which is located in a community different from that in which its parent institution is located. To be considered in a community different from that of the parent institution, a branch shall be located beyond a reasonable commuting distance from the main campus of the parent institution.

INSTITUTIONAL SYSTEM. A complex of two or more institutions of higher education, each separately organized or independently complete, under the control or supervision of a single administrative body.

DEFINITIONS

RESIDENT STUDENTS - Students who take their college work on main campus or on a branch campus. Living quarters *(on campus or off)* and legal domicile are irrelevant. Include resident students in both day and evening sessions.

UNDERGRADUATES - Students taking work creditable toward a bachelor's degree and who have not yet attained a bachelor's degree.

LOWER DIVISION - Freshmen and sophomores; includes students in 2-year institutions who are in "bachelor's-parallel" or "transfer-credit" programs. *(See also line 13. An entry on this line normally will require an entry on line 13.)*

UPPER DIVISION - Students who have completed the sophomore year and typically are enrolled in a 4 or 5-year bachelor's degree program. Students in professional programs of 6 or more years should generally be included in line 05.)

UNCLASSIFIED STUDENTS - Not candidates for a degree, diploma, or certificate, or equivalent award, although taking courses in regular classes with other students; this category also includes students who cannot be classified by academic level *(undergraduate, first-professional, graduate)*, as well as students with the bachelor's degree who are taking undergraduate courses *(e.g., for teacher certification)*.

FIRST-PROFESSIONAL STUDENTS - Students enrolled in a professional school or program which required at least two or more academic years of college work for entrance and a total of least 6 years for a degree. Students in programs requiring only 4 or 5 years beyond high school should be reported as undergraduates. All students enrolled in work leading toward a master's degree are to be reported as **GRADUATE**.

GRADUATE STUDENTS - Students who hold the bachelor's or first-professional degree, or equivalent, and are taking work at the graduate level.

EXTENSION STUDENTS - Extension students are not defined uniformly in all institutions. Most commonly it means face-to-face instruction in centers or places away from the main campus or branch campuses. It may also include on-campus instruction offered by an extension division. Extension centers differ from branch campuses in that students are not counted as resident students. Note that only credit extension enrollment is requested *(i.e., enrollment in courses creditable toward a degree, diploma, certificate, or other formal award)*. Enrollment in interest courses, short courses, noncredit adult education courses, and other community-type programs not creditable toward such an award are to be excluded even though they may be offered under the auspices of the extension division.

FIRST-TIME DEGREE-CREDIT STUDENTS - Students included in line 12 above who are entering an institution of higher education for the first time in Fall 1971, and who have not previously attended any other institution of higher education. Exclude transfers.

NON-BACHELOR'S-DEGREE-CREDIT STUDENTS IN ORGANIZED OCCUPATIONAL PROGRAMS OF LESS THAN FOUR YEARS, NOT CHIEFLY CREDITABLE TOWARD A BACHELOR'S DEGREE - Students in vocational and technical educational programs which are normally terminal and result in a certificate, diploma, or similar award. Note. Students reported in Section I should not also be reported in Section II, and vice versa.

FIRST-TIME NON-BACHELOR'S-DEGREE-CREDIT STUDENTS - Students included in line 16 above who are entering an institution of higher education for the first time in Fall 1971, and who have not previously attended any other institution of higher education. Exclude transfers.

PLEASE READ THESE INSTRUCTIONS AND DEFINITIONS BEFORE COMPLETING THIS FORM. DETACH THIS PORTION AND MAIL COMPLETED FORM TO U.S. OFFICE OF EDUCATION.

INSTRUCTIONS

NOTE: Listings of data for individual institutions are regularly included in published reports of this survey.

Except for the format, this questionnaire form parallels OE Form 2300-2.3-1 Opening Fall Enrollment – Supplementary Information used for fall 1970. If you need clarification on any item, please call Mr. George H. Wade, *(202)* 962-7301, in Washington, D.C.

If exact counts are lacking for a group that should be reported, please include an estimate for that group.

This form should be completed by all institutions of higher education. Please fill out a separate form for the main campus and for each branch or other campus. Do not fill out separate forms for EXTENSION CENTERS. Extension students should be reported on the form for the main campus.

PLEASE COMPLETE THIS FORM as soon as detailed enrollment breakdowns are available, but no later than November 1, 1971.

Do not include in this report:

(a) Students in noncredit adult education courses.
(b) Students taking courses at home by mail, radio, or television.
(c) Students enrolled only for "short courses."
(d) Auditors.
(e) Students studying abroad.
(f) Students in any branch campus or extension center in a foreign country.

One category of information appeared on last year's form for the first time and is being requested again this year: the full-time equivalent enrollment *(column 6)* for each headcount total in column 5. Please enter in column 6, on the appropriate line, the full-time equivalent which you may have already calculated for any of the corresponding headcount totals in column 5. If you have not previously calculated full-time equivalent enrollment, the following method is suggested:

> ADJUSTED HEADCOUNT METHOD - Full-time equivalent enrollment equals the headcount of full-time students plus one-third the headcount of part-time students.

You may use the above method or any other method of calculating full-time equivalent enrollment most appropriate and/or convenient to your institution. If you do not calculate full-time equivalent enrollment figures, the U.S. Office of Education will make the calculations, using the "Adjusted Headcount Method."

OE Form 2300-2.1

NAME OF INSTITUTION	1. INSTITUTION CODE NUMBER

INSTRUCTIONS FOR PART A: FIRST-PROFESSIONAL DEGREES CONFERRED IN SELECTED FIELDS

Only the 8 professions listed below should be reported in Part A. Within these professions, report **first-professional** degrees only. A first-professional degree is defined herein as one which meets all three of the following criteria: (1) it signifies completion of the academic requirements to begin practice in the profession; (2) it is based on a program which requires at least 2 years of college work prior to entrance; and (3) a total of at least 6 academic years of college work is required to complete the degree program, including prior required college work plus the length of the professional curriculum itself.

The "Other" category is to be used only in the event that there are first-professional degrees within the 8 professions other than those specifically named in connection with those professions.

Please note that the 8 disciplines have been grouped in Part A for convenience in analysis; in the Taxonomy listing they appear in the numerical sequence indicated by their code numbers.

For each of the 8 disciplines, degrees other than first-professional are to be reported in Part B.

The TOTAL line (line 14) should show the sums of all entries in columns 4 and 5.

PART A: FIRST-PROFESSIONAL DEGREES CONFERRED IN SELECTED FIELDS *(Requiring at least six years of study)*

IS PART A APPLICABLE TO YOUR INSTITUTION? ☐ YES ☐ NO

(If not applicable, proceed to Parts B and C.)

CODE	DISCIPLINE SPECIALTY *(major field of study)*	LINE NO. *(Circle if new this year)*	NUMBER OF FIRST-PROFESSIONAL DEGREES CONFERRED	
			MEN	WOMEN

1401-1	Law, general [LL.B. or J.D. degree. Report all other law in Part B.]	7		
2301-1	Theological professions, general [B.D., M.Div., Rabbi, or other first-professional degree. Report all other theology in Part B.]	8		
9799	Other, specify	9		
9799		10		
9799		11		
9799		12		
9799		13		
9700	**TOTAL** *(Sum of lines 1 thru 13)*	14		

INSTRUCTIONS FOR PART B: BACHELOR'S, MASTER'S, AND DOCTOR'S DEGREES

1. TYPES OF DEGREES. Report earned bachelor's, master's, and doctor's degrees, except for those first-professional degrees reported in Part A. Report certificates and diplomas if they are equivalent to a bachelor's degree and if they are based on at least 4 years of college work.

Do not report honorary degrees.

Certificates for work between the master's degree and the doctor's degree should be separately listed at the end of Part B. See 5(d) below.

(Report Associate in Arts degrees or similar awards below the bachelor's level in Part C.)

2. GROUPING OF DISCIPLINES. The major fields of study to be reported here, classified in accordance with Section I of the Taxonomy of Instructional Programs in Higher Education, fall in the following discipline divisions:

0100 Agriculture and Natural Resources	1300 Home Economics
0200 Architecture and Environmental Design	1400 Law
0300 Area Studies	1500 Letters
0400 Biological Sciences	1600 Library Science
0500 Business and Management	1700 Mathematics
0600 Communications	1800 Military Sciences
0700 Computer and Information Sciences	1900 Physical Sciences
0800 Education	2000 Psychology
0900 Engineering	2100 Public Affairs and Services
1000 Fine and Applied Arts	2200 Social Sciences
1100 Foreign Languages	2300 Theology
1200 Health Professions	4900 Interdisciplinary Studies

3. SKIPPING INAPPLICABLE DISCIPLINES. Skip those discipline divisions in which your institution does not grant degrees. Many registrars, for example, will skip one or more of the following: 0100; 1200; 1800; 2300.

4. NUMBER OF DEGREES. Report all degrees (within the limitations of paragraph 1, above). If a student earned two degrees between July 1, 1970 and June 30, 1971 (e.g., a bachelor's degree at the end of the summer session and a master's degree at the end of the following academic year), report each of the two degrees in its appropriate classification.

5. DEGREE LEVELS.

(a) Report all BACHELOR'S DEGREES requiring at least 4 but not more than 5 years of academic work in Columns (4) and (5) of the report-form. Also, report ALL bachelor's degrees conferred in a COOPERATIVE or WORK-STUDY PLAN or PROGRAM in Columns (4) and (5). A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows the student to combine actual work experience with his college studies.

(b) MASTER'S DEGREES. The master's degree in liberal arts and sciences is the degree customarily granted upon successful completion of one *(sometimes two)* academic years of work beyond the bachelor's degree.

Except for the Master of Divinity degree (Part A), report all master's degrees in Part B, Columns (6) and (7) *(even though the master's is required in some fields, such as Library Science, Hospital Administration, and Social Work, for employment at the professional level, and even though, as in the case of Social Work, 4 years of undergraduate work are required for entrance into the program and an additional 2 years for completion.)* Report Education specialist (6-year degree) in same columns as master's degrees, in appropriate discipline specialty in Education (0800).

(c) DOCTORATE. The doctorate classification includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and the Ph.D. degree in any field whether Agronomy, Food Technology, Education, Engineering, Public Administration, Ophthalmology, Radiology, etc. *(In the case of the Doctor of Public Health, the prior professional degree is generally earned in the closely related professional field of medicine or of sanitary engineering.)* Please report the doctor's degrees *(except those included in Part A)* in Columns (8) and (9) of the report-form.

(d) OTHER DEGREE OR CERTIFICATE. If your institution provides any recognition *(degree or certificate)* for a program intermediate between the master's degree and the doctor's degree *(Ph.D., Ed.D., etc.)* which in essence is the doctor's degree without the dissertation *(for example, Master of Philosophy, Candidate-in Philosophy, etc.) (do not include 6-year specialist degrees)*, please report the name of the degree or certificate and the number of students receiving it in the item at the end of Part B *(after Item No. 9800.) (Do not include in the tabulated figures for Bachelor's, Master's, and Doctor's degrees in the report-form.)*

6. CLASSIFICATION OF DEGREES ACCORDING TO MAJOR FIELD OF STUDY.

(a) Specific Classification. Classify degrees as specifically as the list of specialties in the broad discipline divisions of the report form permits. Thus, report a bachelor's degree in business administration with an accounting major in Accounting (0502), NOT in Business and commerce, general (0501).

(b) Degree of Doctor of Philosophy. Classify the Doctor of Philosophy degree according to the student's major field of study. Thus, a Ph.D. in Chemistry should be reported as a degree in Chemistry, NOT as one in Philosophy.

(c) Majors of Students Prepared to Teach. The general rule is to classify degrees according to the major area of specialization. This means, in general, that degrees of students who have prepared to teach an academic subject, such as English, biology, mathematics, or foreign languages, should be reported as appropriate in Letters, Biological Sciences, Mathematics, and Foreign Languages and NOT in Education. On the other hand, the degrees of students who have prepared to teach such special subjects as agriculture, art, music, etc. should be reported in Agricultural education (0899-1), Art education (0831), and Music education (0832).

(d) Split and Double Majors. When a student graduates with a split major or a double major – e.g., in Spanish and French – report the degree either in the area of greater specialization or as half a degree (.5) in French and half a degree (.5) in Spanish. *(If the split or double major involved Spanish and an unlisted language, the second language should be reported in Other, specify (1199)).* Similarly in the case of a student with a split or double major in Biology and Chemistry, report the degree in the area of greater specialization or as (.5) degree in Biology and (.5) degree in Chemistry.

(e) Unlisted Fields of Study. When classifying a specialty which does not seem to fit into the list, the institution has two choices: (1) it can be listed by name under "other" if it represents an unlisted specialty, or (2) it can be placed in a "general" category if it covers several listed specialties.

(f) General Majors. The term general major is used to designate diversified curriculums within an area of study. Ordinarily, degrees based on a general major should be reported in one of the general categories of the report-form, such as Physical sciences, general (1901); Social sciences, general (2201); Humanities and social sciences (4903), etc. Thus a degree based on concentration in History-Government-Economics should be reported in Social sciences, general.

(g) Interdisciplinary Studies. Code 4999 is for reporting fields of study which represent two or more broad discipline divisions; for example, Mass Communications, encompassing segments of psychology, education, business, journalism, social sciences, fine arts, etc., should be reported here. Specify the name of the interdisciplinary study when reporting in 4999.

(h) Before submission, please verify that the specialty subtotals (for example, lines 22, 33, and 52, etc.) are the sum of the specified preceding lines for every column (columns (4) through (9).

INSTRUCTIONS FOR PART C: DEGREES AND COMPLETIONS BASED ON LESS THAN 4 YEARS

Part C consists of 5 sections, as follows:

- Section 1: Arts and science or general programs, NOT organized as occupational curriculums
- Section 2: Science-related or engineering-related organized occupational curriculums at the technical or semiprofessional level, subdivided by subject field designation
- Section 3: Nonscience-related and nonengineering-related organized occupational curriculums at the technical or semiprofessional level, subdivided by subject field designation
- Section 4: Total of sections 1, 2, and 3
- Section 5: Organized occupational curriculums BELOW the technical or semiprofessional level

Each student's curriculum is to be reported in the ONE section where it best fits. If a student has received both an associate degree and a certificate for the same 2-year curriculum, the completion is to be counted just once. A combination curriculum which includes both general courses and occupational courses at the technical or semiprofessional level should be reported in section 2 or 3 if it meets all the criteria of an organized occupational curriculum *(see below)*; otherwise it would be reported in section 1. Organized occupational curriculums BELOW the technical or semiprofessional level should be reported only in section 5. In all sections, report whole curriculums only—not individual courses.

For purposes of this survey, an organized occupational curriculum is one which meets all four of the following criteria:

A. High school graduation or equivalent, but no work beyond high school, is required for admission to the curriculum.

B. The curriculum is a series of required and elective courses constituting an integrated program designed to prepare students for IMMEDIATE employment in a SPECIFIC occupation or cluster of occupations. A group of courses, even when all of them are in a given subject area, do not necessarily constitute an organized curriculum.

C. Completion of the curriculum requires at least one but less than four years of full-time attendance, or the equivalent in part-time attendance over a longer period. A "year" means an academic year of approximately nine months.

D. The curriculum leads to ANY type of formal recognition *(certificate, associate degree, diploma, a transcript recognizing successful completion, a statement of completion from an administrator of the institution, or other FORMAL recognition)* signifying that the student has completed an organized curriculum; or the State grants a license or other formal recognition, upon examination, to all graduates of the curriculum.

Note that, for purposes of this survey, organized occupational programs are NOT designed as the equivalent of the first one, two, or three years of a baccalaureate degree program.

Example: Pre-engineering is NOT an organized occupational curriculum as defined in this survey, because it is designed to prepare students for CONTINUATION in the regular engineering program for the bachelor's degree. If an associate degree was awarded for this program, it should be reported in Section 1, columns 4-5. If no associate degree was awarded, it should be excluded from this survey altogether.

Engineering technology IS an organized occupational curriculum, as defined in this survey, because it is designed to prepare students for immediate employment upon completion. It should be reported in Section 2.

Work taken in an organized occupational curriculum may or may not be wholly or chiefly creditable toward a bachelor's degree in your institution or by transfer to another institution. The columns on the survey form provide for the following distinctions in reporting completed programs of 2 or more years but less than 4 years:

Work wholly or chiefly creditable toward a bachelor's degree:

Associate degree
Other formal recognition *(without associate degree)*

Work NOT wholly or chiefly creditable toward a bachelor's degree:

Associate degree
Other formal recognition *(without associate degree)*

Before submission of the survey form, please verify the accuracy of all column totals.

OE Form 2300-3

PART 2 - SALARIES OF ACADEMIC DEANS AND FULL-TIME RESIDENT FACULTY, 1971-72

This is a survey of the basic contract salaries *(exclusive of of fringe benefits)* of academic deans and resident faculty who are employed on a full-time basis for at least two semesters, three quarters, or two trimesters of the 1971-72 academic year.

Academic deans are defined in this survey as deans of schools whose primary function is the administration of resident instructional programs. Part of their time may be devoted to classroom instruction, but this is not a necessary requirement for inclusion in this report. Chairmen of departments and associates and assistants to deans and chairmen should be reported according to their faculty titles, and not as academic deans. EXCLUDE the salaries of such administrators as the vice-president for academic administration, dean of instruction, dean of the faculty, dean of students, etc. The salaries for these administrative positions should be reported in Part 1. Also EXCLUDE the salaries of deans for preclinical and clinical medicine.

Resident faculty members are defined in this survey as the members of the senior resident instruction and departmental research staff who devote more than one-half of their time to the teaching of resident classroom or laboratory courses. EXCLUDE the salaries of: *(1)* other staff members *(i.e., those in organized research, extension, library, administration, etc.)* if they devote less than one-half of their time to resident instruction, *(2)* faculty for preclinical and clinical medicine, and *(3)* students who serve as junior instructors, such as teaching assistants or teaching fellows.

Academic deans and faculty members on sabbatical leave should be reported according to their regular salaries. Salaries of deans and faculty members in religious orders should be reported if their salaries are paid and determined by the same common principles as those which apply to lay faculty. If this is not the case, merely report the number contributing their services on line 35.

Salaries of men and women should be reported on separate pages according to the length of their contracts. For example, men who teach for 9 months with 1 month of vacation are reported in Part 2A as 9-10 month contracts. Similarly, women on 9-10 month contracts are reported in Part 2B. Men and women who teach for 11 months with 1 month of vacation are reported in Parts 2C and 2D, respectively. Salaries paid on other contracts *(e.g., 8 month, 10 month, etc.)* should be reported separately in Parts 2E and 2F and the length of the contract specified.

On lines 1-31, report the NUMBER of persons in each salary interval by the appropriate rank and contract. The salary intervals are in three different increments: $500 up to $10,000, $1,000 up to $20,000, and $3,000 above $30,000. Salaries of faculty members holding ranks other than those listed should be reported if those ranks can be equated to one of the ranks on the form. If the ranks cannot be equated, do not report their salaries. Institutions that do not have academic ranks should report all faculty members *(except deans)* in the column labeled "UNDESIGNATED RANK." Sum the numbers of persons reported on lines 1-31 in each column and enter these sums on line 32.

On line 33, enter the total salary outlay for the persons reported in each column. Report this figure to the nearest whole dollar.

Enter the mean salaries for each column on line 34. The mean is computed by dividing the total salary outlay *(line 33)* by the total number of persons *(line 32)*. Report mean salaries to the nearest whole dollar.

On line 35, report the TOTAL NUMBER OF PERSONS who contribute their services *(e.g., members of religious orders)*, or receive salaries from other sources *(e.g., military personnel who are paid by the Department of Defense to teach ROTC courses)*.
